

SUPER SEMA

MISSION BIOMIMICRY

CREATOR

Inspired by any winged bird, a butterfly, a bat or a very own set of wings, design a flying robot that can fly through a house. Try paper airplanes, pipe cleaners or anything else you can find. Design a sea-jellyfish robot that can clean up the ocean.

TECHNOVATOR

Let's technovate! Design a super suit inspired by an awesome ocean animal. What sea creature are you inspired by? What unique features does it have and what can you learn from it? Design a sea-jellyfish robot that can clean up the ocean.

SUPERHERO

Creative problem solving is a superpower that helps you find cool solutions for difficult challenges. Design a superhero that can solve a problem. What problem are you trying to solve? What unique features does your superhero have? How can you use your superhero to solve the problem?

WITH THE SUPER SEMA COMMUNITY!

Inspire kids all over the world through your kid's creations!

Share your creations on Social Media and we will

MISSION BIOMIMICRY

CREATOR

Inspired by any winged creature -- a bird, a butterfly, a bat -- create your very own set of wings!

Use whatever you have around your house. Try paper, cardboard, foil, pipe cleaners, fabric, or anything else you can find to make your supa decorative wings!

TECHNOVATOR

Let's technovate!

Design a super suit inspired by an awesome ocean animal.

What sea creature are you inspired by?

What unique features would the suit have and what would you call it?

Draw yourself in your new sea-inspired super suit and share it with us!

SUPERHERO

Creative problem solving is a superpower that helps you find really cool solutions for difficult challenges.

Imagine it is raining and you need to run out to your yard to collect your toys without getting wet.

Using materials you have around the house, design your very own jacket or other rain cover inspired by waterproof animals such as fish and birds.
